Rebates (Child Care Rebate and Child Care Benefit)

Many families will meet criteria for the Child Care Rebate, where you can claim 50% of your out-of-pocket expenses, up to a maximum amount (currently \$7,500 per child, per year). Eligibility for the 50% rebate IS NOT income dependant however there is a 'work, training, study' requirement. This essentially means that both parents must be working, training or studying while your child is in care with us, or alternatively you are exempt from this requirement.

In addition you may qualify for Child Care Benefit where part of your fees will be paid by the government. Eligibility requirements depend on your family's situation.

Please contact the Family Assistance Office on 13 61 50 or for more information, please see: <http://www.familyassist.gov.au/>.

Signing in and out

To ensure the children's safety and meet regulatory requirements families will sign children in on arrival at Before School Care and out on collection from After School Care.

On arrival at After School Care staff will sign children into the program. Children arriving from co-curricular activities will be signed into the program by activity provider staff.

Food

All children are provided with nutritional food for breakfast and afternoon tea each day.
